

VSTE Presentation Feedback

First, I have to commend you on your presentation today with Deloris. It was amazing and I cannot wait to go back to school and start some of the projects!

I wanted to see if you had your power point from today on your blog. I also noticed that the History Space example you showed us today was different from the one on your blog. Would you be willing to share the one from today???

Thanks so much and great job!!!!

I loved your presentation! There were super ideas I can use!

One of the presenters showed us VOKIES. Do you know how to create and use them?

Thanks!

Susan

Brian,
Your session was inspiring at VSTE! You are a hero to all of those students who you have made to feel like they have something special to share. Consider yourself hugged every day!
