

Graphing with Microsoft Excel

Step 1:

Favorite Desserts → What is your favorite dessert?

Cake _____

Pie _____

Ice Cream _____

Cookies _____

Fruit _____

Count the number for each dessert and record your information to the right.

Step 2:

Make a graph below of the above information:

Title:

Step 3:

Log on to the laptop and open up Microsoft Excel

Step 4:

While Mr. McKee models at the Promethean Board, follow along at your laptops:

Dessert Number

Cake

Pie

Ice Cream

Fruit

Cookies

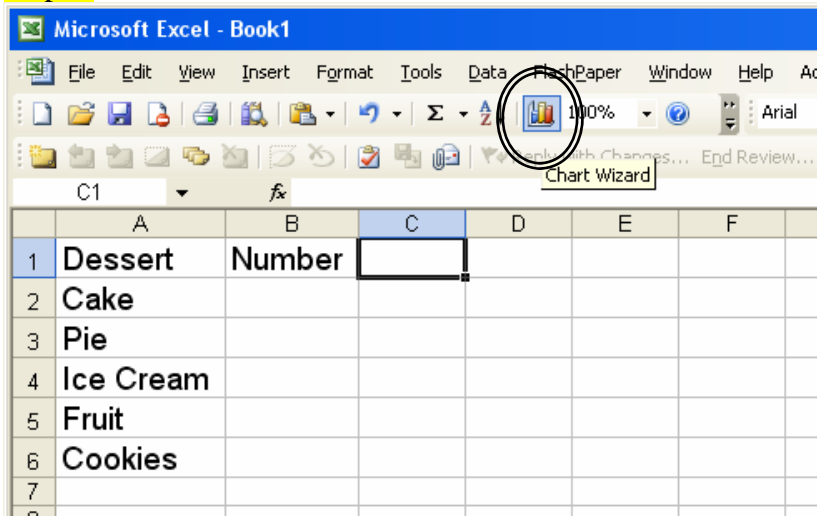

- In cell A1 → Dessert
- In cell B1 → Number
- Continue typing in what you see above.
- In the B column, type in the numbers from our class poll

Step 5:

Highlight from Cell A1 to B6. Your squares should all be light blue

	Dessert	Number
1	Cake	
2	Pie	
3	Ice Cream	
4	Fruit	
5	Cookies	

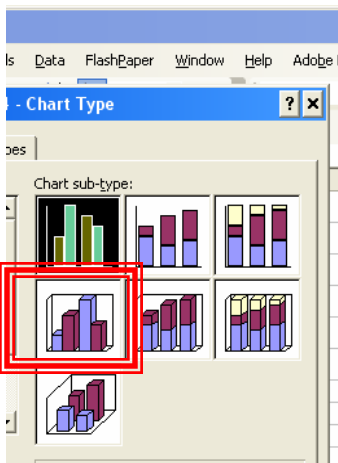

Step 6:

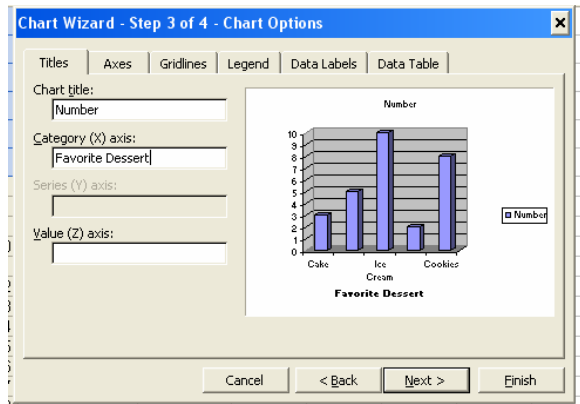

Highlight the Chart Wizard

Step 7:

Click on the icon that you see below:

Type in title

Step 8:

Click “next” and then “finish” to see your completed graph

Step 9:

Does the chart you made compare to the chart on the computer?

Step 10:

Print your chart!
